SFC Community Groups – Prototype User Guide

This is a **prototype for trying out the screens**. You can fill in and submit forms, but nothing is saved, and photos stay on your phone.

Designed for mobile

The app is made **mainly for mobile phones**. On a phone it fills the screen, with large, easy-to-tap buttons and the menu tabs along the bottom.

On a **computer or laptop**, the app still works, but it keeps the same phone-sized layout. The screens show as a narrow column in the middle of the browser, with the menu tabs at the bottom. This is intentional and not a display problem.

1. Getting started

1. Open the link on your phone.
2. On the **Login** screen, choose a demo user from the list:
   - **Admin**: sees all Community Groups and all reports, and can add, edit and close groups.
   - **Group Leader** (for example, "Women's – Leader"): sees and reports for their own group only.
   - **Women's – Asst. Leader**: a demo assistant leader, with the same options as a leader.
3. Tap **Continue**.
4. To try a different role, go to **More** and tap **Switch demo user**.

The tabs at the bottom of the screen depend on your role:

- **Leader or Assistant Leader:** Home, My Group, Reports, More
- **Admin:** Home, Groups, Reports, More

2. Community Group profiles

Every Community Group has its own profile:

Leaders: tap **My Group** to see your group's profile. It shows:

- Group photo, name and category
- How often the group meets (Monthly or Every 2 months)
- **Leaders** and **Assistant Leaders**
- The **next fellowship** planned
- A **View group reports** button
- An **Edit group profile** button

Admin:

1. Tap **Groups**. All groups are listed, and the icon at the top right switches between card and list view.
2. Tap any group to open its profile. It shows:
   - The leaders
   - The next fellowship
   - The last 3 fellowship reports
   - The last 3 follow-ups

  - A **View all reports for this group** button
  - An **Edit group profile** button, and a **Close group** button at the bottom

Meeting frequency

- **Men's** meets **monthly**.
- **All other groups** meet **every 2 months**.
- Only Admin can change how often a group meets.

Editing a group profile (Admin and the group's leaders)

1. **Leaders:** tap **My Group**, then **Edit group profile**. **Admin:** tap **Groups**, open the group, then tap **Edit group profile**.
2. Change the **Group Name**, **Category** or **Group Photo**. Tap **Add photo** to choose a new photo (1 photo per group).
3. **Fellowship Frequency** can only be changed by Admin. Leaders see it as read-only, with the note *"Only Admin can change how often a group meets."*
4. Tap **SAVE CHANGES**. The updated profile is shown with a green "updated" message. Tap **Back to Group** to return.

Adding a new group (Admin only)

1. Tap **Groups**, scroll to the bottom and tap **+ Add group**.
2. Fill in **Group Name** (required), **Category** (optional), **Fellowship Frequency** (Monthly or Every 2 months) and a **Group Photo** (optional).
3. Tap **ADD GROUP**. The new group's profile is shown with a green "added" message.
4. Tap **Back to Groups**, or **Add another group** to add more.

Leaders and assistant leaders are not chosen on this screen; they are assigned separately.

Closing a group (Admin only)

A group is **closed instead of deleted**, so its past reports are kept.

1. Tap **Groups** and open the group.
2. Scroll to the bottom and tap **Close group**.
3. A red box asks *"Close [group name]?"*. Tap **Close group** to confirm, or **Back** to keep the group open.
4. The group now shows a grey **Closed** badge and the date it was closed. Its Next Fellowship section and the edit and close buttons are hidden, but its past reports can still be viewed.

Closed groups are hidden from the Home dashboard and the Groups list. When there are closed groups, a **Show closed groups** button at the bottom of the Groups list shows them again.

3. Creating a new report (Leaders and Assistant Leaders)

You can start a report in two ways:

- **Home:** tap one of the **New Report** buttons: 📝 Fellowship, 📞 Follow-up or 🗓️ Plan Next.
- **Reports tab:** tap **+ New Report**, then choose one of the three types.

A. Fellowship Report

Requirement	What you fill in
Date & location	Date (within the last 7 days, not a future date) and Location
Number of attendees	Attendees
First time attendees	First-time (cannot be more than the attendees)
Summary of activity	Summary of Activity
Comments, prayer requests & testimonies	Comments, Prayer Requests & Testimonies (optional)
Expenditure report	Amount in ₹ and Details, for example "Tea and snacks" (optional)
Photos	Tap Add photo, up to 3 photos; tap ✕ on a photo to remove it
Report filed by	Filled in automatically with your name, role and today's date

Tap **SUBMIT REPORT** when you're done.

B. Follow-up Report

Requirement	What you fill in
Name of person(s) followed up	Name of person followed up
Mode of contact	Tap Call, Text or In-person (required)
Comments, prayer request & testimonies	Comments (optional)
Report filed by	Filled in automatically

Tap **SUBMIT FOLLOW-UP** when you're done.

C. Next Fellowship

Requirement	What you fill in
Proposed next date	Proposed Date (cannot be in the past). A hint shows how often your group meets
Location	Location
Activity & discussion	Activity & Discussion
Goals	Goals (optional)

Tap **SAVE NEXT FELLOWSHIP** when you're done.

After submitting, a confirmation screen shows the completed report. From there you can tap **Back to Home** or start another report of the same type.

D. Changing or cancelling a Next Fellowship plan

Upcoming plans can be changed by **Admin** and by the **group's leaders and assistant leaders**.

1. Open the plan: from **Home** (CG Status, Next), **My Group** (Next Fellowship card) or **Reports**, then **Next Fellowship**.
2. To change it, tap **Edit plan** at the bottom. Update the date, location, activity or goals, then tap **SAVE CHANGES**.
3. To cancel it, tap **Cancel plan**. A red box asks *"Cancel this fellowship plan?"*. Tap **Cancel plan** to confirm, or **Back** to keep it.
4. A cancelled plan shows an amber **Cancelled** badge and the date it was cancelled. It no longer counts as upcoming, but it stays in the group's reports.

The **Edit plan** and **Cancel plan** buttons only appear on plans that are still upcoming and have not been cancelled.

4. Viewing reports

Step 1: Open the Reports tab

Tap **Reports** on the bottom menu. The title at the top shows which group you are looking at:

- **Leaders** see their own group's name.
- **Admin** sees **All groups**.

You will see **four summary cards**. Each card shows a quick summary, so you often don't need to open it.

Card	What the card shows
📝 **Fellowships**	Number of reports and the last date, plus: reports filed this month, average attendance, and total first-timers
📞 **Follow-ups**	Number of reports and the last date, plus: reports filed this month, and how many were by 📞 Call, 💬 Text and 🤝 In-person
🗓️ **Next Fellowship**	How many are upcoming, plus the date and location of the next planned fellowship
💰 **Expenditures**	Number of expenses and the last date, plus: spent this month, total spent, and average spent per fellowship

Leaders also see a **+ New Report** button at the top right.

Step 2: Tap a card to see the list

Tap anywhere on a card to open its list. Reports are sorted **newest first**.

At the top of the list:

- The number of reports found.
- **Expenditures** also shows the total amount spent.

- **Admin only:** a **group dropdown**. Choose **All Groups** or one group, and the list updates straight away.
- **Leaders only:** a **+ New** button to file a new report of the same type.

What each item in the list shows:

- **Fellowship:** date, group name, number of attendees and first-time attendees, and who filed it.
- **Follow-up:** date, the person followed up, mode of contact, and who filed it.
- **Next Fellowship:**
  - Proposed date, location and the planned activity.
  - A green **Upcoming**, grey **Past** or amber **Cancelled** badge.
- **Expenditure:** amount in ₹, group name, date, what the money was spent on, and who filed it.

Each item ends with a **View >** link. Tap anywhere on the item to open it.

Admin view with All Groups selected. Admin sees compact lists that make comparing groups easier:

- **Fellowships:** one line per report.
  - First line: date, group, attendees and "+new" first-timers.
  - Second line: location, amount spent and number of photos.
  - Third line: the first line of the summary.
  - At the top: total attendees and first-timers across all groups.
- **Follow-ups:** a table with the columns **Date, Person, Group, Mode**. Any comments appear in grey under each row. At the top: totals for 📞 Call, 💬 Text and 🤝 In-person.
- When Admin picks one group from the dropdown, the list switches back to the full cards.

Step 3: Tap a report to see the full details

The details screen shows the report type and group at the top, then every field:

Report	Details shown
Fellowship	Date, Location, Attendees, First-time, Summary of Activity, Comments/Prayer Requests & Testimonies, Expenditure (amount and details, or "None"), Photos (with a count)
Follow-up	Date, Person followed up, Mode of Contact, Comments/Prayer Requests & Testimonies
Next Fellowship	Proposed Date, Location, Activity & Discussion, Goals, an Upcoming, Past or Cancelled badge, and the Cancelled date if the plan was cancelled

Every report ends with **Report Filed By**, showing the person's name and the date the report was filed.

- **Photos:** tap any photo to open it full size in a new browser tab.
- Empty fields show **"Not available"**. A fellowship with no photos shows **"No photos"**.
- **Upcoming Next Fellowship plans** also show **Edit plan** and **Cancel plan** buttons at the bottom, for Admin and the group's leaders (see section 3D).
- Tap the **back arrow** at the top left to return to the Reports screen.

Shortcuts to reports

You don't always have to go through the Reports tab.

From the Home screen:

- **Reports this month** opens all reports filed this month. The filter appears as a **"Filed this month ✕"** tag; tap ✕ to clear it.
- **Planned fellowships** opens the upcoming Next Fellowship plans.
- **Spent this month** (Leaders) opens this month's expenditures.
- **CG Status** (Leaders): tap **Next** or **Last** to open that report directly.

From My Group (Leaders): tap the **Next Fellowship** card to open it, or tap **View group reports**.

From a group's profile (Admin, in the **Groups** tab):

- Tap any of the recent fellowship or follow-up reports to open it.
- Tap **View all reports for this group** to see the four cards for that group only.

Who can see what

- **Leaders and Assistant Leaders** see only their own group's reports. Opening another group's report shows *"You can only view reports for your own group."*
- **Admin** can see every group's reports. Admin cannot file reports, but can edit or cancel upcoming Next Fellowship plans.
- **Editing groups:** Admin can add, edit and close groups. Leaders and Assistant Leaders can edit their own group's name, category and photo, but not how often it meets.

5. Extra features (beyond the original requirement)

- **Role-based access:** Admin, Leader and Assistant Leader each see the right screens. Only leaders and assistant leaders file reports, and leaders cannot see other groups' reports.
- **Home dashboard:**
  - Leaders see Reports this month, Planned fellowships and Spent this month.
  - Admin sees the total number of Groups, Reports this month and Planned fellowships.
  - Tap any number to open the matching list.
- **CG Status:** each group shows its next fellowship date (green Upcoming) or an amber Not planned badge, plus when the last fellowship was held and how many attended.
- **Expenditure summary:** a list of every fellowship with spending, with a total in ₹.
- **Admin overviews:**
  - Across all groups: total attendees and first-timers.
  - A follow-up table with counts by contact mode (call, text, in-person).
- **Quick filters:** "Filed this month" and "Upcoming". Tap ✕ on the filter to clear it.
- **Card and list view switch** on the group lists.
- **Group management:** Admin can add a group and close a group (its past reports are kept). Admin and the group's leaders can edit the group's name, category and photo.
- **Changing plans:** upcoming Next Fellowship plans can be edited or cancelled.
- **Confirmation step:** closing a group or cancelling a plan asks you to confirm first.
- **Form checks** that catch mistakes:
  - First-timers cannot be more than attendees.
  - Fellowship dates must be within the last 7 days, and not in the future.
  - The next fellowship date cannot be in the past.

  - Mode of contact must be chosen.
  - Up to 3 photos per fellowship report.
- **Mobile-first design:** large tap-friendly buttons, menu tabs at the bottom, and group photos. It opens on any phone connected to the same Wi-Fi. On a computer, the app shows the same phone-style layout centred in the browser.

6. Missing or only partly met requirements

1. **Leader and assistant leader phone numbers and dates of birth are missing.** Profiles show names only.
2. **No assistant leaders are assigned yet.** Every group shows "Not assigned". The demo Assistant Leader can log in, but does not appear on the Women's profile.
3. **Leaders and assistant leaders cannot be added or changed in the app.** Groups can now be added, edited and closed, but the leader lists are still fixed sample data.
4. **Follow-up details:**
   - Several people go in one name box, separated by commas.
   - There is no date field; today's date is used automatically.
5. **"Report filed by" cannot be changed.** It is always the signed-in leader or assistant leader, which is usually what you want.
6. **Prototype limits** that are expected at this stage:
   - Reports are not saved.
   - Fellowship and follow-up reports cannot be edited or deleted (only upcoming Next Fellowship plans can be edited or cancelled).
   - Reports cannot be exported or shared, for example to PDF or WhatsApp.
   - Photos are not uploaded.
   - Added, edited or closed groups, and edited or cancelled plans, are shown once but not saved.
